TECHNOVA SOLUTIONS PVT. LTD.

EMPLOYEE HANDBOOK

Document ID	TN-HR-HBK-001
Document Type	Employee Handbook
Department	Human Resources
Document Owner	Head of Human Resources
Document Classification	Internal — General Employee Access
Version	1.0
Effective Date	01 April 2026
Review Cycle	Annual
Status	Active

1. Document Purpose

This Employee Handbook establishes the general employment practices, workplace expectations, employee responsibilities, and organizational standards applicable to employees of TechNova Solutions Pvt. Ltd. ("TechNova" or "the Company").

The Handbook is intended to provide employees with a consolidated reference for understanding how the Company operates, what employees can expect from the organization, and what the organization expects from its employees.

The Handbook should be read together with individual Company policies, procedures, employment agreements, departmental guidelines, and applicable laws and regulations. Where a specific policy contains requirements that differ from the general guidance contained in this Handbook, the specific policy shall govern for that subject matter.

This Handbook does not create a guarantee of employment for any specific duration and does not replace an employee's employment agreement.

2. Scope

This Handbook applies to all regular full-time and part-time employees of TechNova Solutions Pvt. Ltd., unless a particular provision explicitly states otherwise.

Certain provisions may also apply, where relevant, to interns, trainees, fixed-term employees, contract personnel, consultants, temporary personnel, employees working from Company offices, employees working remotely, and employees working under hybrid arrangements.

Contractors and consultants may be governed primarily by their contractual terms and applicable vendor agreements. However, requirements relating to information security, confidentiality, workplace conduct, safety, and protection of Company assets may apply to them while they are performing services for TechNova.

3. About TechNova Solutions

TechNova Solutions Pvt. Ltd. is a fictional technology organization established to provide software engineering, artificial intelligence, cloud computing, data engineering, enterprise technology, and digital transformation services.

The Company operates through multiple functional departments and supports customers through technology products, engineering services, consulting capabilities, and internal technology platforms.

TechNova seeks to maintain a professional, inclusive, collaborative, secure, and performance-oriented working environment.

3.1 Vision

To build dependable technology that enables organizations and people to solve meaningful problems at scale.

3.2 Mission

- Build reliable and useful technology solutions.
- Encourage continuous learning and technical excellence.
- Develop long-term relationships with customers and partners.
- Create an environment in which employees can perform meaningful work.
- Maintain high standards of integrity, security, quality, and accountability.
- Use technology responsibly and sustainably.

3.3 Core Values

- Customer Focus — understand customer needs and deliver measurable value.
- Integrity — act honestly, responsibly, and transparently.
- Ownership — take responsibility for commitments, decisions, deliverables, and outcomes.
- Collaboration — value teamwork, knowledge sharing, and respectful communication.
- Continuous Learning — develop technical, professional, and leadership capabilities.
- Excellence — maintain high standards across engineering, operations, security, and business execution.
- Respect — treat colleagues, customers, vendors, and stakeholders with professionalism and dignity.

4. Organizational Structure

TechNova maintains a functional organizational structure designed to support engineering delivery, business operations, employee development, and corporate governance.

The principal organizational functions include Human Resources, Engineering, Finance, Operations, Administration, Information Security, and Management and Executive Leadership.

4.1 Human Resources

Human Resources (HR) is responsible for employee lifecycle management, recruitment support, employee relations, performance processes, benefits administration, learning programs, and maintenance of HR policies.

4.2 Engineering

Engineering is responsible for software development, architecture, testing, deployment, technical operations, engineering standards, and maintenance of technology platforms.

4.3 Finance

Finance manages financial planning, accounting, expenses, reimbursements, procurement controls, financial reporting, and related activities.

4.4 Operations

Operations supports business execution, service delivery, operational procedures, incident coordination, and business continuity activities.

4.5 Administration

Administration manages facilities, workplace services, administrative processes, physical assets, and related organizational support.

4.6 Information Security

Information Security establishes and maintains requirements relating to information protection, access management, security monitoring, incident management, and secure use of Company resources.

5. Employment Categories

Employees may be classified according to the nature and duration of their engagement.

5.1 Full-Time Employees

Full-time employees are employees engaged on a regular basis and assigned a standard full-time working schedule.

5.2 Part-Time Employees

Part-time employees work fewer hours than the standard full-time schedule. Their employment terms and benefits may differ according to their employment agreement and applicable Company policies.

5.3 Fixed-Term Employees

Fixed-term employees are engaged for a defined period or project according to their employment agreement.

5.4 Interns and Trainees

Interns and trainees participate in structured learning or development programs. Their responsibilities, duration, compensation, and eligibility for benefits are governed by the relevant program documentation.

5.5 Contractors and Consultants

Contractors and consultants provide services under contractual arrangements. They are not automatically considered employees of TechNova.

6. Joining TechNova

The employee onboarding process is designed to help new employees understand their responsibilities, access required resources, and integrate into their teams.

Depending on the employee's role, onboarding may include identity verification, employment documentation, employee identification creation, IT account provisioning, security training, policy acknowledgement, department orientation, manager introduction, role-specific training, workplace orientation, and assignment of Company equipment.

Employees must provide accurate information during onboarding and promptly notify HR if any submitted information changes.

7. Employee Records

TechNova maintains employee records required for employment administration and legitimate business purposes.

Employee records may include personal identification information, employment agreements, job title and department, compensation information, attendance records, leave records, performance records, training records, benefits information, disciplinary records where applicable, and separation records.

Employees should promptly notify HR regarding material changes to residential address, emergency contact, bank details, contact information, government identification information, or other information required for employment administration.

Employees must not knowingly provide false, misleading, or fraudulent information.

8. Working Hours

The standard full-time working schedule at TechNova is 40 hours per week, normally distributed across five working days.

Typical working hours are Monday to Friday, 9:00 AM to 6:00 PM. The standard schedule includes a one-hour meal or break period.

Actual working hours may vary depending on customer requirements, project schedules, business operations, shift requirements, time-zone differences, operational emergencies, and department-specific arrangements.

Employees will be informed when their roles require schedules that differ from standard working hours.

8.2 Attendance

Employees are expected to report for work according to their assigned schedule and remain available during required working hours.

Employees who expect to be late or absent should inform their manager as soon as reasonably possible and follow the applicable attendance procedure.

8.3 Flexible Working Arrangements

Certain roles may be eligible for flexible working arrangements. Approval depends on role responsibilities, business requirements, team requirements, performance, operational feasibility, manager approval, and applicable Company policies.

Flexible arrangements are not an automatic employee entitlement.

9. Leave and Holidays

TechNova provides eligible employees with leave according to the Company's Leave Policy and applicable requirements.

Types of leave may include annual leave, sick leave, personal leave, public holidays, parental leave, bereavement leave, and other approved leave categories.

Employees should submit leave requests through the designated Company system whenever advance notice is reasonably possible.

Managers are responsible for considering leave requests while maintaining adequate team coverage and business continuity.

The detailed entitlement, eligibility requirements, approval process, carry-forward rules, and other conditions are defined in the Company's Leave Policy.

10. Remote and Hybrid Work

TechNova recognizes that certain roles can be effectively performed using remote or hybrid working arrangements.

Remote and hybrid work arrangements are subject to role suitability, business requirements, manager approval, information security requirements, performance expectations, availability requirements, and customer commitments.

Employees working remotely must maintain a suitable work environment and comply with all applicable information security requirements.

Company information must not be exposed to unauthorized persons while an employee is working remotely.

Employees must use approved systems for accessing, storing, and transmitting Company information.

11. Employee Code of Conduct

Employees are expected to conduct themselves professionally and ethically at all times.

Employees must: act honestly; treat colleagues respectfully; protect Company property; protect confidential information; follow applicable policies; comply with reasonable management instructions; maintain professional behavior; avoid conflicts of interest; report suspected misconduct; and use Company resources responsibly.

Employees must not falsify Company records, misuse Company property, access information without authorization, harass or intimidate colleagues, engage in discriminatory conduct, deliberately compromise Company security, misrepresent qualifications or work, use Company systems for unlawful purposes, or retaliate against employees who raise legitimate concerns.

12. Respectful Workplace

TechNova is committed to maintaining a workplace in which employees are treated with dignity and respect.

The Company does not tolerate workplace behavior involving harassment, bullying, threats, intimidation, discrimination, retaliation, abusive conduct, or unwanted conduct of a serious or inappropriate nature.

Employees who experience or observe inappropriate workplace conduct should report the matter through the Company's designated reporting channels.

Reports will be handled according to applicable Company procedures and confidentiality requirements.

13. Equal Employment Opportunity

TechNova seeks to provide employment opportunities based on legitimate business and job-related considerations.

Employment decisions may consider qualifications, skills, experience, job performance, business requirements, and role responsibilities.

The Company does not permit unlawful discrimination in employment decisions. This principle applies to recruitment, hiring, assignment, training, performance management, promotion, compensation, career development, and separation.

14. Compensation and Payroll

Employees receive compensation according to their employment agreements and applicable Company practices.

Compensation may include base salary, allowances, incentives, bonuses, and other eligible components.

Payroll is processed according to the Company's payroll schedule.

Employees should review their payroll statements and promptly report apparent discrepancies to HR or the designated payroll contact.

Compensation information is confidential and should be handled responsibly. Employees must not access another employee's compensation information without appropriate authorization.

Detailed compensation structures are maintained separately and may have restricted access.

15. Employee Benefits

Eligible employees may receive benefits according to applicable Company benefit plans.

Benefits may include health-related benefits, insurance coverage, retirement-related benefits, wellness programs, learning benefits, and other employee programs.

Eligibility and coverage are determined by the applicable plan documentation and employment terms.

The Company may modify benefit programs when permitted by applicable requirements and plan terms.

16. Performance Management

TechNova uses performance management to support employee development, business objectives, and accountability.

Performance management may include goal setting, regular manager discussions, performance reviews, feedback, development planning, recognition, and performance improvement processes where required.

Employees are expected to understand their objectives and communicate with managers regarding progress, challenges, and development needs.

Managers should provide constructive feedback and maintain reasonable documentation of performance discussions.

17. Promotions and Career Development

Career progression is based on factors such as demonstrated performance, skills, role requirements, leadership capability, business needs, contribution to Company objectives, and readiness for additional responsibilities.

Promotion is not automatic based solely on tenure.

Employees are encouraged to discuss career objectives with managers and identify relevant development opportunities.

Development activities may include technical training, professional courses, internal workshops, mentoring, knowledge-sharing sessions, project assignments, and leadership development.

18. Learning and Training

Employees may be required to complete mandatory training related to their responsibilities.

Examples include information security, data protection, workplace conduct, safety, compliance, and role-specific technical training.

Employees are responsible for completing mandatory training within the specified timeframe.

Managers should support employees in completing required training.

19. Information Security Responsibilities

Every employee is responsible for protecting Company information and systems.

Employees must use unique credentials, protect passwords, use approved systems, lock devices when unattended, report suspected security incidents, avoid unauthorized software installation, follow access-control requirements, protect confidential information, and use Company data only for legitimate business purposes.

Employees must not share passwords, circumvent security controls, access systems without authorization, copy confidential information to unauthorized locations, disable security software without approval, or connect unauthorized devices to protected systems.

Detailed security requirements are defined in the Company's Information Security and Access Control policies.

20. Acceptable Use of Company Resources

Company resources are provided primarily for legitimate business purposes.

Resources may include computers, mobile devices, email accounts, collaboration platforms, cloud services, network infrastructure, software licenses, corporate storage, and internet access.

Employees must use these resources responsibly and according to Company policies.

The Company may monitor the use of Company systems where permitted by applicable requirements and Company policy.

Employees should not expect personal privacy when using Company systems beyond protections required by applicable law and Company policy.

21. Confidentiality and Data Protection

Employees may have access to confidential Company, employee, customer, vendor, or partner information.

Confidential information may include business plans, financial information, customer information, source code, product designs, security information, employee information, contracts, pricing information, strategic plans, and proprietary processes.

Employees must access information only when authorized, use information only for legitimate business purposes, avoid unnecessary disclosure, store information using approved systems, follow retention requirements, and report suspected unauthorized disclosure.

Confidentiality obligations may continue after an employee leaves the Company.

22. Intellectual Property

Work products created by employees in connection with their employment may be subject to Company intellectual-property rights according to applicable agreements and requirements.

Examples may include source code, technical designs, documentation, algorithms, business processes, product concepts, research, internal tools, and written materials.

Employees must not disclose, transfer, or commercially exploit Company intellectual property without appropriate authorization.

Employees should also respect third-party intellectual-property rights and applicable software licensing requirements.

23. Communication and Collaboration

Professional communication is essential to effective teamwork.

Employees are expected to communicate clearly, respond within reasonable business timeframes, attend required meetings, share relevant information, document important decisions, respect different perspectives, and avoid inappropriate communication.

Company collaboration tools should be used for their intended business purposes.

Sensitive information should only be shared with authorized recipients.

24. Business Travel

Employees may occasionally be required to travel for customer meetings, conferences, training, business development, project activities, or internal Company events.

Business travel must normally receive appropriate approval before expenses are incurred.

Employees must comply with applicable travel and expense procedures.

Eligible expenses may include reasonable costs for transportation, accommodation, meals, and approved business activities.

Employees must maintain accurate receipts and supporting documentation where required.

25. Expenses and Reimbursements

Employees may incur business expenses when authorized to do so.

Expenses should be business-related, reasonable, necessary, properly documented, and submitted within required timelines.

Employees must not submit personal expenses as business expenses, duplicate claims, altered receipts, fictitious expenses, or expenses incurred without required authorization.

Detailed reimbursement limits and approval requirements are established by the Finance Department.

26. Workplace Health and Safety

TechNova seeks to maintain a safe working environment.

Employees should follow workplace safety instructions, report unsafe conditions, report accidents or incidents, use workplace equipment appropriately, and follow emergency procedures.

Employees working remotely are also encouraged to maintain an appropriate and safe work environment.

Emergency instructions may differ by Company location and will be communicated through applicable workplace procedures.

27. Company Property

Company property must be used responsibly and protected from loss, theft, damage, or unauthorized use.

Company property may include laptops, mobile devices, access cards, security tokens, documents, software, equipment, and other assigned assets.

Employees must promptly report lost or stolen Company property.

Upon separation from the Company, employees must return all Company property according to the exit procedure.

28. Conflicts of Interest

Employees must avoid situations in which personal interests conflict, or appear to conflict, with Company interests.

Potential conflicts may include financial interests in suppliers, outside employment, personal relationships affecting business decisions, gifts that influence business judgment, using Company opportunities for personal gain, or working for competing organizations.

Employees should disclose potential conflicts to their manager or HR.

A disclosed conflict does not automatically constitute misconduct. The Company will determine appropriate action based on the circumstances.

29. Gifts and Business Courtesies

Employees must exercise judgment when receiving or providing gifts or business courtesies.

Employees must not accept or provide benefits intended to improperly influence a business decision.

Any gift or business courtesy that may create an actual or perceived conflict should be disclosed through the appropriate Company process.

Additional restrictions may apply to employees involved in procurement, finance, customer contracting, or other sensitive functions.

30. Social Media and Public Communications

Employees may use personal social media accounts in accordance with applicable law and personal preferences.

Employees must not disclose confidential Company information, represent themselves as an authorized Company spokesperson without authorization, publish restricted customer information, disclose security-sensitive information, or make unauthorized statements on behalf of TechNova.

Only designated representatives may make official public statements on behalf of the Company.

31. Use of Artificial Intelligence

Employees may use approved artificial-intelligence tools for legitimate business purposes when permitted by Company policies.

Employees must not submit confidential, restricted, personal, customer, source-code, security-sensitive, or otherwise protected information to external AI systems unless the system and use case have been explicitly approved.

AI-generated content must be reviewed for accuracy, confidentiality, security, intellectual-property concerns, bias or inappropriate content, and compliance with Company requirements.

Employees remain responsible for work submitted under their name even when AI tools were used to assist in producing it.

32. Reporting Concerns

Employees are encouraged to report suspected policy violations, fraud, security incidents, workplace harassment, discrimination, conflicts of interest, unauthorized data access, misuse of Company resources, and other serious misconduct.

Reports should be submitted through the designated reporting channel, manager, HR representative, Information Security team, or other applicable function.

Employees should provide factual information and supporting evidence where available.

33. Non-Retaliation

TechNova does not permit retaliation against an employee who raises a legitimate concern or participates in an authorized investigation.

Retaliation may include threats, intimidation, unjustified adverse treatment, deliberate exclusion, or punitive action for making a good-faith report.

Concerns about possible retaliation should be reported through HR or another designated reporting channel.

Knowingly making false accusations may itself constitute a policy violation.

34. Grievance Procedure

Employees who have workplace concerns should first attempt to resolve ordinary issues through their manager where appropriate.

Where direct resolution is inappropriate or unsuccessful, employees may escalate the matter to the manager, department leadership, Human Resources, or the appropriate specialist function.

Serious matters may be escalated directly to HR or another designated function without first approaching the employee's manager.

The Company may investigate reported concerns and may interview relevant individuals or review relevant records.

35. Disciplinary Process

Failure to comply with Company requirements may result in corrective or disciplinary action.

Depending on the circumstances, actions may include informal counseling, formal warning, performance improvement measures, restricted access, suspension where applicable, termination of employment, or other appropriate action.

The seriousness of the conduct, employee history, impact on the Company, intent, and other relevant factors may be considered.

Certain serious violations may result in immediate escalation or termination, subject to applicable requirements.

36. Separation from TechNova

Employment may end due to resignation, completion of a fixed-term arrangement, retirement, termination, or other circumstances permitted under the applicable employment agreement.

Employees who resign must follow the notice requirements specified in their employment agreement and applicable Company policies.

The Company will communicate the applicable exit process to departing employees.

37. Exit Process

The exit process may include resignation or separation notification, manager confirmation, HR processing, knowledge transfer, asset return, access termination, expense settlement, final payroll processing, benefits administration, exit interview where applicable, and issuance of relevant separation documentation.

Employees are expected to cooperate with reasonable knowledge-transfer requirements.

38. Return of Company Property

Before the end of employment, employees must return Company property assigned to them, including laptops, mobile devices, access cards, security tokens, physical documents, storage devices, and other Company equipment.

Employees must not retain unauthorized copies of Company confidential information after separation.

Access to Company systems may be disabled according to the Company's access-management procedures.

39. Continuing Obligations After Separation

Certain obligations may continue after employment ends, including obligations relating to confidentiality, intellectual property, protection of Company information, return of Company property, outstanding financial obligations, and contractual commitments.

Employees should review their employment agreement and applicable policies for specific continuing obligations.

40. Policy Exceptions

Exceptions to requirements contained in this Handbook may only be granted by an authorized Company function or individual where permitted by the applicable policy.

Employees should not assume that a manager's informal approval overrides a formal Company requirement.

Exceptions may require written justification, risk assessment, appropriate approval, defined duration, and documentation.

Security, legal, regulatory, and confidentiality requirements may have additional restrictions on exceptions.

41. Responsibilities

- Employees: read and understand applicable policies; complete mandatory training; protect Company information; follow workplace requirements; report concerns; maintain accurate employee information; and return Company property when required.
- Managers: communicate expectations; support employee development; manage attendance and performance; maintain team coverage; escalate employee concerns; protect confidential employee information; and apply Company policies consistently.
- Human Resources: maintain employee policies; support employee relations; manage employee lifecycle processes; maintain appropriate employee records; support managers; coordinate policy reviews; and provide guidance on employment matters.
- Information Security: establish information-security requirements; support access controls; manage security awareness requirements; coordinate security incident response; and monitor security risks according to Company processes.

42. Policy Governance

This Handbook is maintained by Human Resources.

The Company may periodically review and update the Handbook to reflect organizational changes, business requirements, policy changes, process improvements, changes in applicable requirements, and security considerations.

Employees will be informed of material policy changes through appropriate Company communication channels.

The latest approved version maintained in the Company's official policy repository shall be considered the authoritative version.

43. Frequently Asked Questions

Who should I contact if I have an HR-related question? Employees should contact their designated HR representative or use the Company's approved HR support channel.

Who approves my leave? Leave approval is generally handled by the employee's manager according to the Leave Policy and applicable approval workflow.

Can I work remotely whenever I want? No. Remote or hybrid work is subject to eligibility, business requirements, and applicable approval.

Can I install any software on my Company laptop? No. Employees must follow Company software installation and information-security requirements.

What should I do if I lose my Company laptop? The loss should be reported immediately through the designated IT and Information Security channels.

Can I share Company documents with external parties? Only when the employee is authorized to do so and the disclosure is consistent with applicable confidentiality and information-security requirements.

What should I do if I discover a security incident? Employees should report suspected security incidents immediately through the designated security reporting process.

What happens when I leave the Company? Employees must complete the applicable exit process, return Company property, complete knowledge transfer, and comply with continuing obligations.

44. Employee Acknowledgement

I acknowledge that I have received access to the TechNova Solutions Pvt. Ltd. Employee Handbook.

I understand that I am responsible for reading and complying with the policies, standards, procedures, and requirements applicable to my role.

I understand that this Handbook provides general guidance regarding Company practices; individual policies may contain additional requirements; my employment agreement remains applicable; I must protect Company confidential information; I must comply with information-security requirements; I must report relevant policy or security concerns; and the Company may update its policies and procedures from time to time.

My acknowledgement confirms receipt and understanding of the Handbook and does not modify the terms of my employment agreement.
